---

## SUMMARY

BCA student and frontend-focused web developer with hands-on experience building responsive web applications using HTML, CSS, JavaScript, React, and Tailwind CSS. Skilled in translating UI designs into functional interfaces, integrating REST APIs, and creating clean, user-friendly components. Currently seeking frontend or full-stack internship opportunities.

---

## EXPERIENCE

### Frontend Development Intern | Codeveda Technologies

Dec 2025 - Jan 2026

- Developed and optimized frontend components using React and Tailwind.
  - Assisted in converting design mockups into functional web pages, Improved UI consistency and usability across multiple screens
- 

## PROJECTS

### MoodCraft

- I built a web application using HTML, CSS, JavaScript for users to track their mood and manage their stress, with features including a mood logging system to record daily feelings and an interactive breathing exercise for stress relief.

**Live demo** <https://akshandhyani789.github.io/moodcraft-webapp/>

### GitHub Profile Finder

- Developed a responsive web application that allows users to search GitHub usernames and view public profile information using the GitHub REST API.

**Live demo** <https://github-user-search-reactjs-3571.vercel.app>

---
